

RELOCATABLE BRINE STORAGE

CAMION®

DROP & RAISE TECHNOLOGY™

The unique jacking system is simple to pump and is placed at the perfect height. Raise the tanks without busting your back.

CORRODE-PROOF™ MATERIAL

Built with salt brine compliant material, this tank will keep your brine pure.

STRONG-X™ ROOF DESIGN

The beefed-up roof structure with molded-in truss-like supports eliminates collapsing.

HEAVY-DUTY TUBE FRAME

The unit is powder-coated and ready for abuse. All wires are protected inside the tube, and built-in house holders are included.

RIBBED-WALL™ STRUCTURE

The ribs act like belts around the tank, keeping it in shape and reducing bulging.

AUTO-DRAIN™ CONE BASE

The 15° cone base channels every ounce of liquid to the drain. No more cleaning.

YOUR ON-SITE BRINE DEPOT

Staging your brine on site can save your trucks valuable refilling time when moments matter. Our relocatable storage trailer makes it easy to safely store brine when and where you need it, without the setup of more permanent tanks.
